Aug 2023 – Jun 2024   Foundation in Arts in Sunway College

Technical skills

Programming language: python, SQL, java, java script, web development, fusion 360, networking, robot operating system

---

Project

- o Networking Cisco Packet Tracer - focusing on networking concepts and practical implementation using Cisco Packet Tracer. The project aims to provide hands-on experience in designing, configuring, and troubleshooting computer networks in a simulated environment. https://github.com/Qiyou0103/networking-cisco-packet-tracer-project.git
- o Inventory Management System - A Python-based Inventory Management System, handling product, supplier, and order management with file-based data storage. https://github.com/Qiyou0103/inventory-management-system.git
- o Pokemon Ga Ole - A modular, object-oriented Pokémon game implemented with clean code principles. The project features distinct classes, encapsulation, inheritance, and polymorphism to ensure maintainability, reusability, and easy scalability. https://github.com/Qiyou0103/pokemon-ga-ole.git
- o Bookmycar -This is a simple car rental project built entirely with HTML. It provides a basic template for showcasing car rental services or building a static website for a car rental business. https://github.com/Qiyou0103/bookmycar.git
- o Individual Portfolio - This is a personal portfolio website built entirely with HTML. It is designed to showcase skills, projects, and Contact in a clean and professional format. https://github.com/Qiyou0103/individual-portfolio.git
